RESEARCH AND WORK INTERESTS

Front-End Web Development, UI/UX Design, Responsive Web Design, JavaScript Frameworks (React.js), Tailwind CSS, Web Accessibility, Cross-Browser Optimization, Java Programming.

EDUCATION

B.S. in Computer Science
Hawassa University — Hawassa, Ethiopia

SKILLS

TECHNICAL SKILLS

- **HTML5, CSS3, JavaScript (Basics)**: Core web technologies for structuring and styling web pages, as well as adding interactivity with JavaScript.
- **React.js**: A JavaScript library for building user interfaces, especially for single-page applications (SPA).
- **Tailwind CSS**: A utility-first CSS framework for creating custom designs efficiently.
- **Responsive Web Design**: Techniques to ensure web content adjusts to various screen sizes, enhancing user experience across devices.
- **Java**: Object-oriented programming language, useful for building complex systems and backend services.
- **C++**: General-purpose programming language widely used for system/software development and game programming.

CODING SKILLS

- **HTML**: Structuring web pages using semantic markup.
- **CSS**: Styling web pages, focusing on layout, typography, and responsive design.
- **JavaScript**: Writing interactive and dynamic behavior for web pages.
- **Git**: Version control tool used to manage and track code changes in collaboration with teams.
- **Java**: Basic knowledge of syntax, structure, and object-oriented principles in Java.
- **C++**: Proficient in syntax, functions, and object-oriented programming concepts in C++.
- **REACT**: a JavaScript library used for building fast, interactive user interfaces, especially single-page web applications.

Languages
English, Amharic

Other Skills
Problem Solving, Communication, Adaptability, Remote Collaboration

EXPERIENCE

Virtual Front-End Developer Intern
Various Online Platforms — Remote
- Participated in hands-on internships building front-end features and UI components.
- Collaborated with other developers to complete assigned tasks in a virtual environment.
- Gained exposure to remote communication, agile workflows, and code reviews.

Student Web Developer
Personal Projects — Remote

- Built multiple fully responsive websites as part of coursework and freelance practice.
- Implemented modern UI/UX principles using HTML, CSS, React.js, and Tailwind CSS.

CERTIFICATIONS

- Front-End Web Development Certification — ALX
- Fundamentals of Programming Certification — Udacity
- Responsive Web Design Certification — [Insert Platform, e.g., freeCodeCamp]

PROJECTS

Responsive Portfolio Website
- Created a personal portfolio website showcasing front-end projects using React.js and Tailwind CSS.

- Technologies Used: React.js, Tailwind CSS, HTML5, CSS3

Landing Pages and Mini Projects
- Designed and developed several landing pages and mini-projects (product pages, blog templates, login forms) applying semantic HTML and reusable CSS components.

-Technologies Used: HTML5, CSS3, JavaScript, Tailwind CSS

EXTRA-CURRICULAR ACTIVITIES
-Participating in Tech Events: Attending conferences, webinars, and meetups to stay updated with the latest trends and network with professionals in the tech industry.

- Actively participating in front-end development challenges.
- Ongoing self-study in advanced React.js topics (State Management, Routing, Hooks).
-Counseling Students: Providing guidance and support to fellow students, offering advice on personal development, career planning, and academic growth.

-Community Engagement: Volunteering to help others with various skills, including mentoring students and offering advice on web development.

VISION
Aspiring Front-End Developer eager to contribute to innovative tech companies by delivering high-quality web experiences and continually improving skills through real-world projects.
